

DEPARTMENT OF THE ARMY

OFFICE OF THE ASSISTANT CHIEF OF STAFF FOR INTELLIGENCE
WASHINGTON, D.C. 20310

1 MAY 1979

DAMI-ISH

MEMORANDUM THRU DIRECTOR, FEDERAL BUREAU OF INVESTIGATION

FOR ASSISTANT DIRECTOR, TRAINING DIVISION, FBI ACADEMY

SUBJECT: Nomination of FBI Member to Assist on Army Project

1. Request your assistance in nominating an individual in the FBI to participate in an ad hoc Army Surgeon General Human Use/Test review panel that has been constituted to deal with a unique, classified project. This requirement is in response to Army and DOD General Counsel direction that HEW guidelines as they pertain to projects that involve the use of human subjects must be followed. Specifically, the panel must include one person not affiliated with the Department of Defense.
2. This requirement does not involve a great deal of time as it is anticipated that the panel will sit for one day only, two or three times annually, probably at the Pentagon. For the most part, the panel now comprises behavioral scientists and medical doctors.
3. The FBI Training Division at Quantico has been informally contacted by the Army Staff Action Officer, Major Bill Stoner (Tel: 202-695-5048). Major Stoner spoke with personnel in the FBI Training Division and was told that [redacted] seems to have the type background needed. Of course, we offer [redacted] name only as a suggestion, and would welcome anyone you designate.
4. If there are questions please contact Major Stoner directly. The next panel meeting is expected sometime the end of May 1979, so there is some sense of urgency involved. Your cooperation is greatly appreciated.
